

Where are they now?

Adolf Jaison Moomba

Adolf was born in 1992 in Mazabuka, and completed his secondary education at Zimba High School in 2009 where he obtained a full certificate. Adolf has been involved in the reforestation programmes which were organised by Green Pop organisation. He became passionate about the environmental activities he was involved in, and he decided to join Children in the Wilderness as an Eco-Mentor at Holy Cross School. Adolf was tent leader looking after 8 boys at Children in the Wilderness annual camp that was held at Tokaleya recently. He was also a team leader and presented on the importance of trees and the reforestation topics.

“I studied at Victoria Falls University and obtained Bs qualification in Business Administration in 2015. I then worked for Livingstone Tourism Association as Administrative Assistant before meeting my dreams to study Bridging Course in Environmental Education at Southern African Wildlife College in 2016 and have completed my in-service trainings with Wilderness Safaris at Toka Leya camp in Livingstone. I never knew what nature was and its benefit in totality until I set my foot at Southern African Wildlife College. This was a turning point and now nature is my friend. I pledge to support and protect its relevance”. - Moomba
